Hi Evelyn, I will need the inventors last known address and a "log" of your attempts to contact him. Hopefully, we will find him and he will sign before we have to go through the paperwork to get this handled.

Regards,
Linda

Hi John

I'm trying to contact an old colleague of yours, Dave Evans. I need him to sign some papers for an invention of his which is being filed at the US Patent Office.

In June 2003 Mark Cox gave me an email address for him, which I have tried but received no response to. I also mailed the papers to him at his Cheshire address but, once again, had no response so I assume that he's probably moved. Mark Cox mentioned your name, so I thought you might be able to help. Do you have any contact with him, or do you know of anybody else who might know his whereabouts?

Thanks in anticipation.

Hi Dave

Your above invention is being prepared for filing at the US Patent Office. Please find attached soft copies of US formal papers for your signature. There are two forms to be completed. The first is the 'Declaration and Power of Attorney' and the second is an 'Assignment' of the patent rights to IBM. Please print the forms single-sided, sign and date both the forms WITH YOUR FULL NAMES AS TYPED using blue ink (these are requirements of the US Patent Office), and return to me at the address below as soon as possible. If something on the form is incorrect (eg your name, address or citizenship), please correct it in pen and initial and date the change.

Please also be aware of your duty under US law to disclose information (ie technical publications such as journal articles, competitor's product brochures or patents) which is material to the patentability of this application. This obligation extends until the US patent is granted. Therefore, as you become aware of any additional information, please inform me on an ongoing basis.

If you have any queries, please don't hesitate to contact me.

Hi Linda

The inventor left IBM over two years ago, so I'm not sure whether he's at the same address. I had an email address for him then, so hopefully it's still the same. This is just to warn you that it may take a bit longer than usual to get the signatures.

Hi Evelyn, here is the last request (for this year) for signatures on US formal papers. Please have the inventor sign and send the forms back to me, via Fax, and mail the originals like always. This was entering PCT National Phase so I have included a copy of the Preliminary Amendment that Mr. McKinley filed along with this application.

Hi Dave

DOCKET NO: GB920030049

Further to our email correspondence, I am enclosing the papers which need your signature.

To file your invention at the US patent office I enclose the final version of the patent application, and the formal papers. There are two forms to be signed and dated. The first is called 'Declaration and Power of Attorney' and the second is an 'Assignment' of the patent rights to IBM. Please sign and date both the forms where indicated **WITH YOUR FULL NAMES AS TYPED** using blue ink (these are requirements of the US Patent Office), and return the complete package to me as soon as possible. If something on the form is incorrect (eg your name, address or citizenship), please correct it in pen and initial the change. Please also be aware of your duty under US law to disclose information (ie technical publications such as journal articles, competitor's product brochures or patents) which is material to the patentability of this application. This obligation extends until the US patent is granted. Therefore, as you become aware of any additional information, please inform me on an ongoing basis.

I also enclose a PCT Power of Attorney for signature, which will enable us to file your invention in various other countries around the world.

If you have any queries, please don't hesitate to contact me.

Thanks very much for your help.

Kind regards
